About Us

STUDENT ACTIVITIES COMMITTEE
IEEE REGION 9
2024 - 2025

The IEEE recognizes the significance of students within the organization and prioritizes their needs, interests, and concerns through the **Student Activities Committee (SAC)**.

Operating under the Regional Committee of Student Activities (R9 SAC Team), this committee plays a crucial role in providing policy guidance and coordination for **Student Branches, directors, advisers, technical chapters, and mentors**.

345 Sections in
10 Regions

39 Technicals
Societies

2.750 Chapters

372.000 members

107.000 Student
Members

3.706 SB

2.750 Chapters

+160 Countries

10 Regions

540 Affinity
Groups

1.200 Standars

+1.600
Conferences

Seed Funding

What are the benefits of IEEE student activity funds and awards?

IEEE SPAX

IEEE's funding for student branch support - 400 USD

Approaches for these funds!

- ▶ Professional Integrity
- ▶ Personal Skills
- ▶ Engineers and Public Policy
- ▶ Leadership in Professional Organizations
- ▶ The Practice of Innovation
- ▶ The Art of Communication
- ▶ Humanitarian and Grand Challenges

IEEE FCV: Voluntary Contribution Funds

The purpose of the funds is to support IEEE activities aimed at students, young professionals and educational projects. Funds may also be applied to support IEEE activities in countries experiencing particularly difficult economic conditions.

The application and submission of the project should be made in time for processing and should include at least the following aspects:

- Definition and scope of the project
- Justification of why the project is aligned with IEEE's vision in the student and/or young professional environment.
- Place and date of the project
- Organizing entity (Section, Student Branch, etc.)
- Volunteer directly responsible
- Detailed budget: Sources and uses

The project form should be sent to Alberto Sanchez (aesanchez@ieee.org), president of the Alumni Council. Once this is done, the Council will evaluate the purpose of the project, may request more information from the responsible volunteer, and will make the final decision on whether or not to allocate the requested capital. These activities will always be carried out in coordination with the Regional Directorate.

Funds of Chapters, Societies, and/or Communities, Affinity Groups

Depending on the chapter or Society you can have:

- 1. Seed capital: up to 500 USD (for creating the chapter or affinity group).*
- 2. Funds to bring at least one distinguished speaker from the Organizational Unit (up to 1500 USD).*
- 3. Apply for projects, events, technical or non-technical (from 1000 to 10000 USD).*
